

Come Let Us Take Care of You

Are you coping with a major disease? Join Judy Fleming at the Island View B&B in Wiarton Ontario where you can get away from everything and pamper yourself for a few days while we take care of you. You will experience some awesome vegan food while we explore how the Hallelujah Diet can help you cope with your health issues and improve your immune system. Between meals and lectures you can just relax on the decks, go for a walk and enjoy the views or you can try one of the extra health therapies they have at the B&B. (There is an extra charge for each therapy)

Colourful Mexican Salad Delight

Judy will prepare many vegan gluten free meals for you to enjoy from some of the recipes she has developed over the years.

In the evenings you are free to do what you want or you can join your hosts Mark and Cathy Young to watch one of their many health and food related videos or you can just visit with each other.
